Hatred of adult cartoons

You might be thinking, what makes you think that Lapis hates adult animation? Well, she hadn't made any fanart of adult cartoons, like The Simpsons, Family Guy, South Park, Bojack Horseman, Smiling Friends, and many more. It's pretty clear she can't stand adult animation, but for some reason she drew Milk Chan with Adult Swim 2003, and Charlie Morningstar from Hazbin Hotel. I guess Lapis only drew Milk Chan all because of its cute style, and she only drew Charlie Morningstar, probably because of Charlie's personality. Talk about being a big hypocrite.

She also once did a fill-in of Velma 2023. True, the show sucks ass, but it was a DAMN FILL-IN. I also re-call Spencer following suit.

Refusal to handle election results

She threw a temper tantrum when Trump won the 2024 US election, even though the majority of her watchers came from outside the United States (mostly Canada and the United Kingdom)

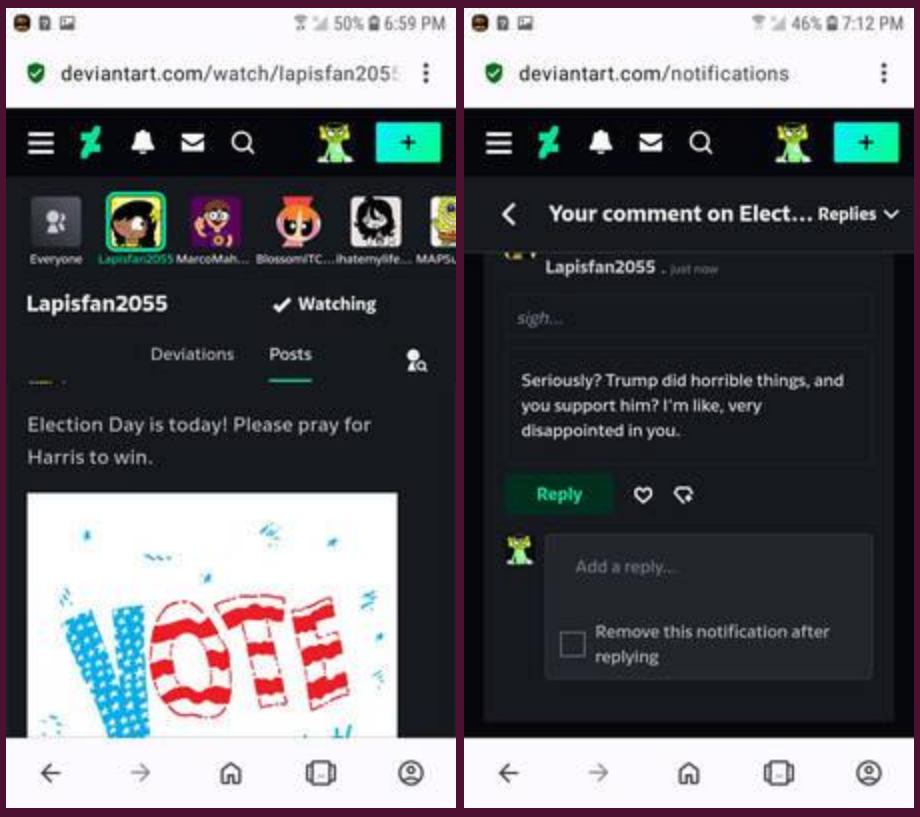
She also lashed out at MalloryPBSKherself simply for *mildly* supporting Trump.



Oh and speaking of Mallory, Kya has a pattern of misspelling her name as “Malloy”, most likely on purpose at this point.
